Market capitalization =	4.035.961	3.169.355	6.118.089

Measure the shareholder value, profitability of investment, efficiency, leverage and liquidity of the firm by using appropriate financial ratios and values. Use rounding and two digits after the decimal. Do not use averages. All the values provided are necessary.

After the calculations, comment on the economic and financial situation of the firm being considered.

Before doing the exercise, attend the lecture where it will be first presented and discussed.
