

Corporate Finance (in lingua inglese) - A.A. 2024/2025
Topics 9, 10, 11, 12, 13, 14 and 15: project analysis, financial markets, agency problems, and corporate financing

1. In the context of project analysis, emphasize the differences between sensitivity analysis and scenario analysis.
2. Define the concept of market efficiency and its forms.
3. Explain the notions of financial markets and financial intermediaries.
4. What is an IPO?
5. Explain the main forms of agency conflicts between shareholders and managers.
6. Describe the main forms of approach to value creation: shareholder capitalism, stakeholder capitalism and socially responsible business.
7. Discuss the difference between cash flow rights and control rights. Who has these rights?
8. Bonds: illustrate the concept of seniority, security and call provisions.
9. Describe the main forms of unusual bonds.
10. What is a bank loan?
11. What is a lease? Describe its main advantages.

If you need help, please revise Chapters 10, 12, 13, 14, 15, 19, 20, 25 and 26 of the textbook.
